

Raphael Mizrahi

Silver Spring, MD | (301) 655-0614 | rmizrahi03@gmail.com | linkedin.com/in/mizrahiraphael

PROFESSIONAL SUMMARY

Early-career technology professional with hands-on experience in Linux systems, automation, and Python development. Skilled in troubleshooting, secure remote access, and system configuration, with a strong interest in infrastructure and cloud technologies.

TECHNICAL SKILLS

Systems & Infrastructure: Linux Administration (hands-on), Server Setup, Networking Fundamentals, Remote Access, System Troubleshooting

Programming: Python, C (familiar), Algorithms & Data Structures

Backend & APIs: Flask, REST APIs, API Integration, Environment Configuration

Automation & Data: Task Automation, Scripting, Data Processing, Real-Time Data Handling

Cloud: AWS Fundamentals, Cloud Architecture Concepts

Tools: Git, Linux CLI, HTML/CSS/JavaScript (basic)

PROFESSIONAL EXPERIENCE

Technical Analyst / Computer Programmer — R@MLogic | 2019–Present

- Worked on internal technical projects supporting software development and operational workflows.
- Collaborated with team members to design and test tools.
- Troubleshot technical issues and implemented solutions improving system efficiency and productivity.
- Contributed to automation, data processing, and system configuration projects.

TECHNICAL PROJECTS

Day Trading Large Language Model (In Development)

- Collaborating on development of an LLM for day trading analysis.
- Integrating financial data and machine learning techniques.
- Contributing to experimentation, data processing, and architecture.

Self-Hosted Linux Server Environment

- Installed/configured Linux server OS and secure SSH access.
- Managed networking, storage, permissions, monitoring, and troubleshooting.

File Duplication Detection Application

- Built application to identify duplicate files and optimize storage.

Custom Browser

- Built browser to experiment with web navigation and rendering.

EDUCATION

Yeshiva of Greater Washington

Bachelor of Talmudic Law

Harvard CS50 — Computer Science Coursework

AWS Cloud Fundamentals — Independent Study
